

Naomi

Hi, I'm Naomi. In 2010 I was eighteen years old. I was a high school student. That year, there was a big earthquake. My house was destroyed. My family became poor. We had no money. My father said, "Naomi, you can't go to school because we have no money. You have to stop school. You have to work." So, I stopped studying. I couldn't finish high school. I started to work. I worked hard. I could save money, but I wasn't happy.

In 2012 I met my old high school teacher. She said, "There is a new night school. You can study after work. You can finish high school." I started to study again. It was not easy. I was very tired. But I thought, "Naomi, you have to try." Now I'm twenty-three years old. I'm so happy. Today I finished high school.
