

# My Garden

Hello. My name is Dan. I like working in my garden. I like to plant trees. These are my old photos.

In 1972 I was ten years old. I was next to my house. There were no trees. There were no birds. There was no clean air. I was not happy. In 2002 I was forty years old. I was in front of my house. There were trees. There were birds in the trees. There was clean air. I was happy.
