

Circus

Hi, I'm Victor. I'm nineteen years old. Every morning I can see a lion, a monkey, and an elephant. I don't live in Africa. I don't live in a zoo either. My family is a circus family. Last year I finished high school, but I didn't go to school. I didn't study in a class either. I studied at home. My mother was my teacher. I was a homeschooler.

Every weekend I work in the circus. I work with my father. He is a big strong man. When he was eighteen years old, he could push a car with his head. When he was twenty years old, he could fight a bear. I can't fight a bear, but I can walk on a rope. I can stand on a ball too!
