

# Pet Horse

Hi, I'm Anna. I live in the city. My family lives in a small house. Next month we are going to move. We are going to live in a big house in the countryside. My father is going to work at a school. My mother is going to work at a post office.

Last week we drove to our new house. While we were driving to our new house, I saw a young girl. She was riding a horse. The horse was big and beautiful. The girl was cool. I asked my mother, "Can I get a pet horse?" She said, "Yes, but you have to take care of the horse every day."

That night I checked on the internet. I studied horses. Then I made a plan. Here it is.

1. I'm going to feed my horse.

2. I'm going to brush my horse.
